

The *Wave* of the *future* has arrived.

*For pain management,
the wave is infrared.*

KenkoWave™ infrared treatment system

You don't have to live with pain.

Or drugs. Or surgery.

There is a way to treat pain — occasional or chronic — without medication. Without surgical procedures. Without side effects, or time needed to recuperate.

The KenkoWave infrared treatment system is a true breakthrough in managing pain and discomfort. It's painless, safe and simple — using the KenkoWave is as easy as pressing a button.

It needs no prescription, and it's ready whenever you are, at home or away.

With a completely natural form of energy — infrared waves — KenkoWave can help to reduce or eliminate pain as if by magic.

Nikken — The Wellness Home Company

Nikken has been the world leader in wellness technology ever since we pioneered the concept in 1975. With a worldwide presence and billions of dollars earned in revenue, Nikken is based on a unique idea. Other companies sell a product or service — Nikken offers a better quality of life.

Nikken is based on the concept of total wellness. Instead of concentrating on curing disease, total wellness focuses on prevention. It rests on the Five Pillars of Health™ — Healthy Body, Mind, Family, Society and Finances.

A Nikken Wellness Home offers more than comfort — it is an environment that supports a family's health and happiness. You can transform your home into a Nikken Wellness Home, by improving daily life in four specific areas:

- Rest and Relaxation
- Environment
- Nutrition
- Fitness

Products offered by Nikken combine ancient principles with modern technology. These innovations include:

- Magnetic Biaxial Rotation
- Advanced Magnetic Technology
- KenkoWave Technology
- Kenzen Wellness™ Technology
- CardioStrides™ Fitness Technology
- Advanced Sleep Technology
- Far-Infrared Technology
- Whole-Body Conditioning
- PiMag™ Water Technology
- Air Wellness™ Technology

Nikken not only produces a full range of products that can improve physical wellness — it also offers personal and financial growth. Nikken Independent Wellness Consultants are helping people achieve a better life through the power of Nikken products and the Nikken business opportunity.

Make your own dreams a reality. Contact your Nikken Independent Wellness Consultant, or visit www.nikken.com.

NIKKEN®

KenkoWave™

INFRARED TREATMENT SYSTEM

SAFE
NATURAL
PAINLESS
EFFECTIVE

How it works

All energy exists as pulses or waves. The wavelength longer than red light waves is called infrared — invisible energy that can painlessly penetrate beneath the surface.

This is the principle put to use in the KenkoWave™ treatment system. You merely apply the unit to the affected area, and enjoy relief. No pills, injections or postoperative sting.

KenkoWave uses light-emitting diodes (LEDs) to produce infrared energy. Two groups of LEDs are built into the KenkoWave lens. One set of LEDs projects the invisible infrared energy.

The other set of LEDs produces visible light. This unique aiming feature helps you to focus the KenkoWave exactly where you need it. That makes using the KenkoWave even simpler.

A directed wave of energy

KenkoWave not only offers distinct advantages over drugs or surgery. KenkoWave technology is also a quantum leap beyond primitive pain relievers such as heating pads or analgesic skin creams.

A heating pad or cream works from the outside in. A pad heats the surface first. You have to wait until the heat reaches the problem area. And sometimes your skin can become uncomfortably hot, well before relief reaches your aching muscles or joints.

Compare that to the infrared technology of KenkoWave. As soon as they are applied, infrared waves penetrate below the surface.

KenkoWave infrared energy works at the cellular level to increase circulation and reduce inflammation, to accelerate the process of recovery, and relieve pain.

Infrared energy can address pain at the source without drugs or surgery. KenkoWave directs this energy to where it hurts.

Completely natural

Infrared waves are found in living organisms — including human beings. Living things react to infrared in the form of energy from the sun, from inanimate objects and from other living organisms. Infrared promotes growth and healing.

The KenkoWave unit simply produces a concentrated, focused form of this energy.

Just as with other Nikken technologies, KenkoWave uses natural forces to promote wellness.

Infrared used by NASA and in medicine

The United States National Aeronautics and Space Administration (NASA) developed an infrared system to use in the Space Shuttle, designed for research on plant growth in space. Like the KenkoWave unit, the NASA design uses focused LEDs.

Physicians are studying LED infrared technology in a number of therapeutic uses, including wound healing.

Some of these devices produce waves in the near-infrared, infrared, or far-infrared portions of the spectrum. Nikken KenkoWave technology features a span of wavelengths within the infrared range — to provide an optimum combination of energy wavelengths.

KenkoWave is considered a Class II medical device by the United States Food and Drug Administration. It is available for sale in the US without prescription, and is also available in Canada. KenkoWave is safe and effective.
